## Professional Experience

---

**Associate Dean, Strategic Initiatives, McGill University Libraries**, November 2023 – present.

- **Equity, diversity, inclusion, and accessibility.** Led design of an [Action Plan for Equity, Diversity, Inclusion, and Accessibility \(EDIA\)](#) for the McGill Libraries. The plan presents a vision, process, and commitment to act in support of equity, diversity, inclusion, and accessibility in the McGill Libraries services, spaces, collections, and workforce, along with six EDIA projects. Created an EDIA training plan for Libraries staff, and partnered with the School of Information Studies to continue the Student Librarian Fellowship for Black Students program. Chair the Libraries' Equity, Diversity, Inclusion, and Accessibility Committee, partner with the campus Equity Office, and lead a partnership with the Office of Accessibility and Achievement to provide accessible versions of course content for users with visual disabilities.
- **Indigenous initiatives.** Led design of an [Action Plan for Indigenous Initiatives \(II\)](#) for the McGill Libraries which presents a vision, process and commitment to reconciliation, along with ten Indigenous Initiatives projects. Both plans include seven joint projects and jointly, the two plans involve 48 different staff members. Created a program to provide community borrower cards to members of local Indigenous communities and adapted the campus land acknowledgement to describe the colonial nature of university libraries. Chair the Libraries Indigenous Initiatives Committee, and partner with the Office of Indigenous Initiatives, and serve as staff to a task force planning the repatriation of ancestral remains to a local Mohawk community and developing a campus repatriation policy.
- **Sustainability.** Co-led initiative for every Libraries' unit to achieve the McGill Office of Sustainability's Bronze level certification. Co-leading effort to achieve certification from Sustainable Libraries Initiative, requiring 110 actions to complete.

**Associate Dean, Digital Initiatives, McGill University Libraries**, November 2013 – October 2023.

- **Digital Initiatives department growth:** Transformed web development staff distributed across Library units into a professionally managed Application Development team. Developed a new model to provide hardware, software, and specialized equipment for Library users and staff. Grew functional liaison program supporting research data management, open access, ethical copyright practices, and scholarly publishing. Oversaw growth and professionalization of Libraries digitization program. Total staff in department: 15.
- **Sustainable Library systems:** Strategic oversight for on-time migration of acquisitions and circulation to OCLC WorldShare Management Services and technical integration with the Libraries' new offsite robotic storage facility using OCLC APIs. Oversaw implementation of online finding aids system for manuscript and archival collections using Access to Memory (AtoM), adoption of Samvera for a refreshed institutional repository, and exploration of Spotlight for digital exhibits.
- **Service design:** Co-designed and launched Digital Scholarship Hub, a set of services designed to support data literacy, open access, online presentation tools, and research data management. Co-led initiative to create cohesive Course Readings Service integrating electronic reserves and the Bookstore's coursepack program. Began the design of the Technology Program for a now-abandoned building planning project.
- **Campus partnerships:** Developed strong relationship with Office of the Vice-Principal (Research and Innovation), resulting in a librarian embedded in the campus Digital Research Services team and incorporating library services into Sponsored Research activities. Partnered with IT Services to move the drop-in IT Help Desk to the Libraries, convinced them to allow the library to use their server infrastructure to host library-managed applications using modern DevOps practices, and negotiated an arrangement to allow the Libraries more customization than normal on the campus-hosted web site.
  - **Equity, diversity, and inclusion:** Coordinated a Libraries Equity, Diversity, and Inclusion Steering Group, facilitating and supporting EDI initiatives originating from Library staff. Served as lead planner for a School of Information Studies fellowship program for Black McGill undergraduate students to obtain an MLS along with real-world Library work experience.

**Head, Carolina Digital Library and Archives, The University of North Carolina at Chapel Hill, December 2010 – October 2013.**

- Directed a service-oriented department focused on developing, managing, and publishing digital content in curated scholarly digital initiatives, in focused library collections and exhibits, and at scale in large digital repositories.
  - Oversaw the work of five permanent staff members, a half-time library school student fellow, and additional limited-term staff.
  - Lead the definition and implementation of the department's digital library services to the Library and to campus and provided long-term planning for the growth of innovative and production-focused digital collections and preservation of digital content.
  - Provided high level oversight of the department's efforts to support the online publishing of library collections and scholarly content, tracked and understood impact of the UNC Library's digital collections and digital scholarship presence and its digital production work, making use of a broad array of digital conversion and ingest capabilities and equipment.
  - Guided the department's activities facilitating the planning of technology initiatives within the Library, in collaboration with the Library Systems department.
- Coordinated the work of the department with others in the Library, including subject liaisons, special collections curators, and Library Systems staff to ensure digital collections and digital scholarship had the widest reach and best impact possible, and promoted long-term sustainability of digital content and technical infrastructure for its access and preservation.
- Actively promoted digital library, digital scholarship, and scholarly communications knowledge within the Library by directing the department's activities partnering on specific initiatives, providing training, and sharing information.
- Provided leadership to the UNC Library in the development of access and preservation mechanisms for digital content.
- Served on the Library Technology Council, which provided high-level oversight of library technology initiatives, and on the Library's repository management group.

**Metadata Librarian, Digital Library Program, Indiana University, July 2004 – November 2010**

- At departure, tenured position at the Associate Librarian rank.
- Responsible for metadata planning for a research and production-oriented digital library team, including application of metadata standards and mapping between metadata formats.
  - Significantly expanded the usage of MODS in the IU Libraries, oversaw the technical design of a MODS editor for sheet music, and successfully advocated for new features in the MODS schema based on our implementation experience.
  - Worked on a team to design a METS-based page turning application and successfully advocated for new features in the METS schema based on our implementation experience.
  - Convened EAD Working Group which oversaw the usage of the standard within a number of units in Library and on campus. Provided technical and encoding support to EAD implementers, maintained local EAD best practices, and helped administer EAD delivery system for the Libraries.
  - Worked closely with a number of other metadata formats, including MARC, simple and qualified Dublin Core, EAD, TEI, and the Audio Engineering Society core audio and process history standards.
  - Frequently used XSLT to map metadata between formats, and worked closely with the Schematron assertion language to implement metadata quality control procedures.
  - Managed the inclusion of metadata in the department's OAI-PMH data provider.
- Developed metadata implementation guidelines for digital library projects using a variety of media, including text, still images, music, audio, and video.
- Provided frequent consulting services on descriptive, technical, structural, and administrative metadata issues to the Indiana University community and beyond.
- Supervised hourly metadata creation positions, interns, and other staff as needed.

- Performed overall project management for select Digital Library Program projects, including both grant-funded and base-funded initiatives. Participated in and often led the development of grant proposals.
- Assisted with web development, including requirements specification; interface design; web page markup using HTML, CSS, and Javascript; and user testing and research for digital image collections.
- Member of the Digital Library Program's Administrative team responsible for long-term planning issues for the department.
- Acted as a liaison between the Digital Library Program and the Indiana University Libraries Technical Services department.
- Educated Indiana University Libraries staff on developing metadata issues.

### Other Library Experience

- **Digital Media Specialist, Digital Library Program, Indiana University**, October 2000 – July 2004. Managed digitization lab, managed digital collections projects, supervised staff and students.
- **Assistant Circulation Supervisor and Assistant Stacks Coordinator, Cook Music Library, Indiana University**, November 1999 – October 2000. 75% FTE position with circulation and user services responsibilities, night/closing shift. I was typically the only staff member in the building. Supervised students.

### Education

---

**MLS, Specialization in Music Librarianship**, Indiana University School of Library and Information Science, Bloomington, IN, August 2003.

**MA, Musicology**, Indiana University School of Music, Bloomington, IN, May 2000.

**BM, Music Education**, University of Miami School of Music, Coral Gables, FL, May 1997.

## Other Professional Contributions

---

Created “Seeing Standards: A Visualization of the Metadata Universe,” a graphic and accompanying glossary of metadata standards useful in the cultural heritage sector. Graphic design funded through an Indiana University Libraries White Professional Development Award. Final documents released June 2010 are available from <http://www.jennriley.com/metadatamap>.

Creator and convener of *Digital Discussions*, a monthly presentation and discussion event designed to build technical expertise among UNC Library staff and affiliated units. <http://digitaldiscussions.web.unc.edu>.

Designed and implemented a monthly “Metadata Discussion Group,” providing a forum for the Indiana University Libraries and School of Library and Information Science community to investigate new developments in metadata. Group began November 2007, and continued past the time I left Indiana University. <http://www.dlib.indiana.edu/services/metadata/activities/mdg.shtml>.

Sole author of the professional weblog *Inquiring Librarian*, <http://inquiringlibrarian.blogspot.com>, devoted to “Thoughts on librarianship, technology, and how they affect each other in the 21st Century.” Began February 2005. Inactive as of 2011.

Invited contributor to *TechEssence*, <http://www.techessence.info>, a weblog/wiki providing technology information for library administrators. Site is currently inactive.
